EXPERIENCE

- #### GHL Expert

From - Dec 2025

Xort Logix ,Ghourri VIP Block, Street#2, Islamabad, Pakistan

 - Skilled in building funnels, automating workflows, and
 - managing CRM systems using GoHighLevel. Handle Zapier
 - integrations, AI-powered automations, pipeline management,
 - and email/SMS campaigns. Deliver practical solutions that
 - streamline operations and drive business growth for clients.
- #### GHL Internship

Oct 2025 - Dec 2025

Xort Logix ,Ghourri VIP Block, Street#2, Islamabad, Pakistan

 - Built funnels, workflows, and CRM setups in GoHighLevel.
 - Optimized marketing campaigns, integrated calendars, and
 - streamlined client systems. Promoted to Jr. GHL Expert
 - within 3 months based on performance.
- #### Front-end Developer

From 2024

 - I am a Frontend Developer with experience in creating responsive and user-friendly websites. I work with HTML, CSS, Bootstrap, and basic JavaScript to build clean and efficient designs. I focus on delivering websites that perform well on all devices, provide seamless user experience, and meet client goals effectively.
- #### Website Designer

From 2024

 - I am a Frontend Developer and Website Designer. I create responsive websites that are visually appealing and user-friendly. I work with HTML, CSS, Bootstrap, and basic JavaScript to deliver clean designs. My goal is to provide clients with functional, efficient, and attractive websites that perform well across all devices and enhance user experience consistently.
